GUIDE D'INSCRIPTION • STAND

Modules - stand: Whatever the package desired, the booking application must include one of the four stand modules. Services marked with a full circle (●) are included in the module, and services marked with an empty circle (○) may be ordered as extras, under the heading "Complementary Services", whilst services marked with a hyphen (-) cannot be ordered. All services marked "On Request" (O.R.) may be ordered via the "Vademecum Exhibitor Guide" (cf. section entitled "Additional Technical Orders" which will give rise to the establishment of a quotation). Retail sales is authorized provided Article 11 of the General Regulation is respected.

Additional space: All additional space corresponds to a precise "stand module". If the exhibitor makes an error of calculation, applications to book additional space will be altered automatically by the organiser in accordance with the chosen stand module.

Corner site: These are limited and must be requested when booking. They are provided within the limits of availability.

Additional parking: The number of parking spaces is limited. Attribution will be by date of receipt of booking application. Vehicle pass-holders drive and park on the LUXEXPO THE BOX site at their own risk and peril.

Electricity: The supply of electricity is obligatory, and a 3 kW connection is included in each "stand module". The booking application for a higher electrical connection will give rise to a surcharged invoice. The booking application for any additional connections (2 and more) will give rise to an invoice for 3 kW boxes and, depending on the current required, the corresponding surcharges. The provision of "Electricity connection and more" includes the rental of the equipment, making it operational and an advance on consumption of electricity. Additional consumption will be charged at € 0,58 kWh, by meter reading, after the exhibition. An increase of space for the "BASIC", "EASY" and "EASY-PUB" modules will in fact result in an increase in the number of spotlights (1 additional spotlights per additional 9 m²). The rental of small-calibre cables is not included.

Additional technical orders or orders for items on request (O.R.): All technical orders marked "O.R." may be passed via the "Vademecum Exhibitor Guide" sent to each exhibitor after allocation of their stand or submission of a quotation.

Marketing and communication: All technical elements must be provided by the sponsor and will be ordered later by the organiser.

Entrance tickets: The first 50 entrance tickets are free of charge. Additional entrance tickets will be invoiced after the event on the basis of actual use. The price for additional entrance ticket is € 1,00 excluding VAT.
